Why this machine will work for you:

All Simplex machines are recognized as a **World Standard** for liquid, semi-solid, and/or soft particulate filling. The Simplex Model V-400 is an **accurate, automatic,** filling machine which includes our **Flex-Fill System**. Our **Flex-Fill System** allows for an infinite variety of product applications adapted to each customer's specific needs. The V-400 is designed to merge with almost any automated conveyor system. Quickly and easily cleaned the V-400 is also very **reliable,** and extremely **powerful**. This **Four Head Volumetric Piston Filling** machine is **durable, economical, and versatile,** especially with our new **PLS Control System** which allows multi-speed contour filling and operator adjustable programming. All contact points are constructed of USDA approved materials making it useful for many applications.
