

Volumetric Piston Filler - V-800 Electro-Pneumatic Cam Driven - V-800

Machine shown with optional accessories

Specifications:

- By application
- Volume:** Up to 160 fl. oz.
- Accuracy:** Up to 1/2% of volume filled (Rate determined by volume/product & container opening)
- Dimensions:** 36" L x 89" W x 60" H (92 L x 226 W x 153 H cm)
- Weight:** Net 800 lbs. (360 kilos)
- FOB:** 1000 lbs. approx. (450 kilos) Napa, California

Why this machine will work for you:

All Simplex machines are recognized as a **World Standard** for liquid, semi-solid, and/or soft particulate filling. The Simplex Model V-800 is an **accurate, automatic**, filling machine which includes our **Flex-Fill System**. Our **Flex-Fill System** allows for an infinite variety of product applications adapted to each customer's specific needs. The V-800 is designed to merge with almost any automated conveyor system. Quickly and easily cleaned the V-800 is also very **reliable**, and extremely **powerful**. This **Eight Head Volumetric Piston Filling** machine is **durable, economical, and versatile**, especially with our new **PLS Control System** which allows multi-speed contour filling and operator adjustable programming. All contact points are constructed of USDA approved materials making it useful for many more applications.

Components Included:

- Infinitely variable input and fill speed controls
- Fully automatic operation
- Stainless steel contact points
- No can - No fill sensor
- Floor stand
- Container indexing system

Optional Equipment:

- Different spout sizes and configurations
- Different hopper sizes and configurations
- Bulk Adapter manifold
- Different product cylinder sizes
- Plunging spouts
- Neck grippers
- Drip tray
- Liquid level sensor for hopper
